-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mankoff US 2003/0028518A1 (hereinafter "Mankoff") in view of Tami et al US 2004/0049427 (hereinafter "Tami") and Walker et al 5,945,653 (hereinafter "Walker"). Mankoff discloses a paperless coupon redemption system in which a coupon is associated with a customer's credit card [0015]. It is disclosed that the merchant sends data of the purchase to the card-matching agent, who would then match the credit card transaction to the appropriate consumer's coupon database in order to determine whether a discount should be applied. If the conditions of the offer are met, a discount would be applied and a notice of the discount to the consumer could be delivered to the retail location itself at the time of purchase. There is disclosed a display in which the

coupon offer may be displayed [0031]. Mankoff does not specifically disclose that the coupons are presented to the consumer at the register. Walker discloses in his description of the prior art beginning in column 2 line 54 the American Express "Express Rewards" program which is a credit card based loyalty discount system in which discounts are offered to a customer at the POS for using the American Express card. It would have been obvious to a person of ordinary skill in the art at the time of the invention to utilize the American Express program in the invention of Mankoff. This would encourage loyalty to both the card and the store as a customer holding the card would be allowed to get associated discounts. If not inherent, Tami discloses providing the cost of an item and its discount on a receipt, i.e. display the cost and discount [0287] It would have been obvious to a person of ordinary skill in the art at the time of the invention to display the cost and discount on an item in order to inform the user of the actual purchase price for accounting purposes. The credit card identifier is inherently detected when the credit card is presented for use.

4. Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new ground(s) of rejection. Tami is added to support the previous holding of Official Notice.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
